In re Application

Inventor(s): Zucherman et al.

Appln. No.: 10/730,717

Confirm. No.: 3955

Filed: 12/08/2003

Title: SYSTEM AND METHOD FOR REPLACING
DEGENERATED SPINAL DISKS

PATENT APPLICATION

Art Unit: 3738

Examiner: Stewart, Alvin J.

Customer No. 23910

COMMUNICATION

Art Unit 3738
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

This COMMUNICATION is in response to Examiner Stewart's request that our *Response* to the *Office Action* dated May 25, 2006 be resubmitted with a written explanation to Examiner Stewart's *Office Communication* dated November 8, 2006.

Examiner Stewart found that the *Response* was not fully responsive to the *Office Action* because: "In Claim 16, the status identifier shows as 'currently amended' and there is no amendment to claim 16."

In a telephone conversation with Examiner Stewart on December 5, 2006, the amendment to claim 16 (the addition of a comma, underlined but difficult to see) was pointed out.

Examiner Stewart requested the resubmission of our original *Response* in addition to a *Communication* outlining the telephone conversation and amendment, at which time he would proceed with review of this application.

Respectfully submitted,

Date: 12/06/2006
